Program Description:

The Computer Systems & Information Technology (CSIT) program is designed to provide students with the necessary instruction and experience to prepare them to pursue a career and employment in the field of PC upgrade/repair and networking after successful completion of the Computer Systems & Information Technology (CSIT) program. Upon completion of the program the student will have acquired the necessary skills required to perform competently in the field as a computer technician, network specialist and network administrator.

In addition, the program will provide the student with opportunities for individual growth and personal awareness, which will hopefully lead to an expansion in their interests, confidence, personal success, work ethics and skills.

The purpose of the CSIT program reflects Emerald Coast Technical College's mission as evidenced by the desire to provide students with the training and education that is required to function successfully in the professional workforce.
